Turning on the projector and lowering the projection screen

- On the Touch 10 panel, press **Projector:**
- Press “On” to power on the projector
- Press “Down” to lower the projection screen
- Press anywhere on the opaque area to exit
Transmitting content from your device to the projector

- To transmit content from your device, enable sharing by pressing “Share” from the main screen, and then pressing “Share” again under “Presentation Source”
North Campus Building 284

Wireless

Use the Webex Teams app on your device

Presentation Source

Share
- Then you can either plug-in your laptop via the **HDMI port under the projection screen** or follow the instructions on the **projection screen** to transmit your **content wirelessly** via our **Solstice Pod** technology.

- Further instructions regarding **Solstice Pod** usage can be found here:
