Wall Controls

![Wall Controls Image]

Turning on the Projector

1. Press the power button labelled **Projector / Screen** above.
2. This will turn on the projector and automatically lower the projection screen.

Raising and Lowering the Projection Screen

The projection screen should lower and raise automatically when the projector is turned on and off. You may also control it manually.

1. Press the button labelled **Screen Up** above to raise the screen.
2. Press the button labelled **Screen Down** above to lower the screen.

Displaying the Presentation PC Output

1. Turn on the projector.
2. Press the **HDMI 1** button on the wall controller (labelled **PC** above).
3. Log in to the presentation PC with your GAUL account.
4. Right-click on the desktop and select **Display Settings**.
5. Select the **Mirror** option under **Display Mode** to mirror the PC and projector displays.

Note: the projector will not display any output on **HDMI 1** until you have logged in.
MC 244 Audio/Visual Instructions

Displaying Laptop Output (HDMI)

1. Turn on the projector.
2. Connect your laptop to the HDMI port in the box on the presentation PC desk.
3. Press the HDMI 2 button on the wall controller (labelled HDMI above).

Displaying Laptop Output (Wireless)

1. Turn on the projector.
2. Press the button labelled Wireless above on the wall controller.
3. Follow the instructions at https://sts.sci.uwo.ca/help/solstice.html to connect to the Mersive Solstice.

Please turn off the projector and raise the screen when you are finished with your lab.
